New, stylish look for the 20th birthday of the AQUA DOME - Tirol Therme Längenfeld, one of the finest SPA resorts in the Alps

Cool combination: winter sports in Sölden and a new look & feel for the AQUA DOME

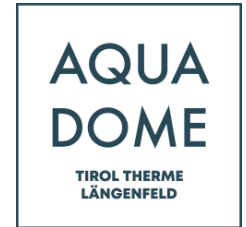

The AQUA DOME - Tirol Therme Längenfeld will be 20 years young in 2024. And it has just been spruced up, fresh and cool. Just in time for the winter season! The entrance hall, bar and restaurants have been modernly and stylishly renovated, the latter with a large, glass extension opening up even more incredible views of the high alpine mountain world. The colours, shapes and materials, on the other hand, are more cosmopolitan. Contrasts have always given the AQUA DOME that special kick from which the body and mind can draw strength and relaxation: "Lift your spirit" is the motto of one of the most beautiful thermal resorts in the Alpine region!

The concept is based on active relaxation. Exercise in the morning – with or without skis – and relax in the afternoon in the thermal baths and the luxurious SPA 3000. Once you've explored up to 144 kilometres of slopes and two snow-sure glaciers with 31 modern lifts in the nearby top skiing area of Sölden, you'll want to relax. Take off your skiing overalls, put on your swimwear and let go in the warm thermal water, drawn from a depth of 1865 metres. Cosy warmth on top of freezing cold is simply good for you. In the 'floating' shell pools, you can lose the ground under your feet, sheltered by high peaks and surrounded by the magic of the Ötztal winter. The power of thermal water can also be found in the hotel's own 'thermal deep' series and the corresponding signature treatments in the SPA. And if you've left the slopes during the day for the unique '007 Elements' James Bond experience, check out the new, cosmopolitan bar of the 4-star superior hotel in the AQUA DOME in the evening, and find out what he meant by "shaken, not stirred".

They're the perfect duo: the top ski resort of Sölden and the cool AQUA DOME - Tirol Therme Längenfeld, in the midst of the impressive winter landscape of the Ötztal. Sölden promises a winter holiday with its finger on the pulse, with the world's most powerful cable cars taking you to 144 kilometres of snow-assured slopes, two glaciers and spectacular viewing platforms. Up at an icy 3,000 metres, you'll also find the James Bond world of experience at the summit of the Gaislachkogel. The glass 'ice Q' once served as a 007 film location and is now a gourmet restaurant. A lush 400 m² of piste area per skier is available in Sölden. And if you don't ski, you might be interested in cross-country skiing, tobogganing or snowshoe

hiking. The AQUA DOME is the perfect accompaniment to the power of the Ötztal – tension should always meet relaxation. 20 years young, it is more than ever considered one of the top spa locations and the most architecturally exciting thermal resort in the Alpine region. Architecture merges with nature here, as seen in the award-winning SPA 3000 for guests of the 4-star superior hotel. The restaurant wing with entrance hall and bar, freshly renovated and expanded for winter, also demonstrates an unmistakable sense of contemporary style. The huge panoramic windows let in the vast nature of the Ötztal, and the colours and shapes of the diverse interior seem to be inspired by nature. Of course, there are also colourful accents and statements like the new, spacious rounded bar. The new look and feel is light, fresh and very modern; generous and structured at the same time. There's a touch of big city flair, which makes for an exciting contrast in the middle of the Ötztal. Taste your way through the cuisine of the 'Alpine Arc' – also vegan and vegetarian – according to your mood. A culinary cultural exchange with lots of inspiration.

'thermal deep' signature line with thermal water from Längenfeld

The power of opposites has always made the AQUA DOME unmistakable. Hot meets cold, fire meets water (in all aggregate states), 250 3000m peaks meet thermal water from a depth of 1865 metres. And the three floating bowl pools – the unmistakable landmark of the AQUA DOME – seem to translate the slogan "Lift your spirit" into architecture, lifting both body and mind to a new level. The power of the thermal water – from a depth of 1865 metres – can also be experienced in the in-house 'thermal deep' signature treatments. Once used for the 'Bauernbadl', the Längenfeld thermal water is combined with the effect of regional herbs in the exclusive AQUA DOME signature line. As a high-quality, certified natural cosmetic – vegan and with purely organic ingredients – 'thermal deep', with its discreetly fresh herbal scent, lets you experience the elemental power of the Ötztal with all your senses.

The thermal water also bubbles in the twelve wonderfully warm pools that lead out of the crystal-shaped thermal dome into the open air. Perfect for this: the imaginative infusions of the AQUA DOME sauna world. Eleven saunas wait to be explored, from the stone sauna and the hay town sauna to the loft sauna. And at the 'SPA 3000' on the roof of the thermal landscape, you'll experience luxurious spa moments and atmospheric views of the peaks while resting afterwards.
